OPENING THE PDF

The program is a standard PDF and opens on any phone, tablet, or computer with no special software. If double-clicking does not work, drag the file onto an open web browser window — every modern browser reads PDFs.

CANNOT FIND THE FILE AFTER DOWNLOADING?

On a computer: check your Downloads folder. **On iPhone:** open the Files app, then Downloads (Etsy downloads do not go to Photos). **On Android:** open Files or My Files, then Downloads. **Any device:** you can re-download at any time from Etsy — go to *Purchases and Reviews*, find this order, and tap *Download Files*. Your download never expires.

THE ONE PAGE WORTH PRINTING TODAY

If you print nothing else, print **page 7** — the Green / Amber / Red check-in. Put it on the fridge or inside a cupboard door. It is the page you will use every single morning.

YOUR FIRST STEPS

01 Read pages 2 and 5

Page 2 is the safety notice and it matters. Page 5 explains the recovery curve the whole program is built on. Together they take about six minutes.

02 Write your trigger window on page 8

The time your first drink usually happened. There is a blank line for it. This single answer determines when you train.

03 Put three sessions in your calendar this week

Phase 01, Sessions A, B and C, from pages 12 to 14. Inside or just before your trigger window, with a rest day between each.

04 Do the check-in tomorrow morning

Sixty seconds, page 7. Score your sleep and your craving, and let the score pick the session. Do not skip this on day one — it is the habit the whole system rests on.

05 Write today's day number in the log

Whatever it is. Day 1 counts. Day 200 counts. Write it down.

BEFORE YOU START — PLEASE READ PAGE 2

If you drink heavily or daily, stopping suddenly without medical supervision can be dangerous and in some cases fatal. This program is a training plan, not a detox plan or a treatment plan. Speak to a doctor first. In the US, SAMHSA's National Helpline is **1-800-662-4357** — free, confidential, 24 hours a day.
